John,

I would appreciate it if you would provide a call-in number.

Thank you.

Debbie

Debbie,

Tuesday at 10:00 a.m. is good on everyone's schedule. Do you want me to set up the call or will you?

Best,

John

John,

Ben and I are available for a call to discuss wells for upgradient PFAS sampling next week as follows:

Tuesday, 5/26: 10:00 to 4:00

Wednesday, 5/27: 1:00 to 4:00

Friday, 5/29: 9:00 to 4:00.

Please let us know a time that would be convenient for you.

Thank you.

Debbie

Subject: RE: ACL groundwater sampling

Debbie,

One of the issues we had was that under EHS Risk Assessment, EHS itself could not sample. I was troubled by sending in another subcontractor to sample when the contractor had determined that it was not safe to do so. Marty has informed me that their risk assessment has changed and it appears under the State of Delaware guidelines (<https://governor.delaware.gov/delawares-recovery/>) that EHS original subcontractor can sample and I understand that is being arranged for June.

That brings me to the second issue. We are still negotiating with Norfolk Southern for access, but I'm hopeful we'll reach agreement. However, I understand the owner of the property where well MW-58 is located and possibly MW-56 (evidently the well is within a few feet of the property line and there is not a consensus as to whether it is on NS property on the property owned by the same owner of the property well MW-58 is located) would not like the wells sampled. I'd like to discuss this with you and then have a discussion with the counsel for the property owner. I'm available tomorrow and all of next week. Let me know when would be a good day/time to discuss. It would probably be helpful to have Ben Cohan on the call also, if he is available.

Best,

John

Subject: ACL groundwater sampling

Good morning, John and Marty.

What are the ACPS' plans for rescheduling the April groundwater monitoring event? Have any efforts been made to secure a Delaware environmental firm to perform the work?

Debbie
